Autodiagnos VCI speaks your language with Integrated Guided Diagnostics

Diagnostics doesn't have to be scary! This all-rounder offers solutions for many conceivable variants of vehicle diagnostics with step-by-step instructions to guide you through the process.

Functions & Benefits:

- Identifies control devices automatically
- Reads and deletes fault code memory
- Extensive live data and measured values
- Component activation
- Communicates to any compatible Windows PC
- Guided troubleshooting (HaynesPro VESA)
- Technical bulletins (HaynesPro SmartFix)
- In-depth vehicle coverage

Supports a wide range of systems:

- DPF - regenerates and resets
- Brakes - ABS, EPB, SBC
- SRS - extensive live data
- Service reset - CBS variable and advanced
- Recoding of control modules
- Recoding diesel injector
- TPMS - reset and reprogram
- Body control modules
- Immobiliser system
- EMS - petrol and diesel
- Comfort systems
- SAS - recalibration

VDO

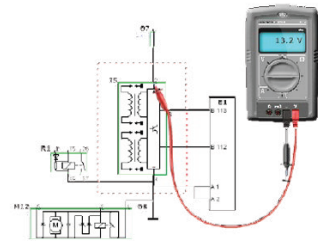

Autodiagnos DSI

Single click access to detailed information usually only known to the vehicle manufacturer!

HaynesPro VESA

Using data retrieved from the vehicle's CAN-Bus system, VESA guides the user to the source of the fault in just a few clicks, and solutions or options for action are immediately displayed.

- Intelligent, step-by-step diagnostics
- Creates local component diagrams
- Generates diagnostic solutions

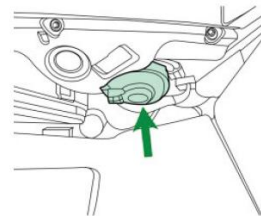

#Pin	Wire Colour	Component
1	Violet/Grey	E1 Engine control unit
2	Red/Green	07 Fuse SB14
3	Blue/Violet	E1 Engine control unit
4	Brown	M12 Brake vacuum pump
4	Brown	08 Grounding point 44
4	Brown	R1 Main relay

Order it Once, Order it right! Parts distributors have seen a significant reduction in the return of incorrectly ordered parts with the integrated online parts catalogues:

- Detailed information on components
- Purchase the correct components in confidence

HaynesPro SmartFix

- Technical Service Bulletins (TSBs) previously only known to the manufacturer
- Recall Data identifies known issues
- Detailed information on faults
- Repairs defects in the form of TSBs
- Smart links to other data (procedures, drawings, manuals and fault codes)
- Data complies with the OEM documentation

Technical Service Bulletins	
Symptoms	The heater blower only operates at the highest setting
Cause	Temperature below 0° C Snow ingress into the air duct
Solutions	Remove the passenger's footwell trim Drill a small drain hole
