ContiSys Scan

Effective diagnostics from VDO with enhanced performance and capabilities other tools ignore.

Now available for £995.00 + VAT

VDO

Tests reliably - Scores additional points through performance.

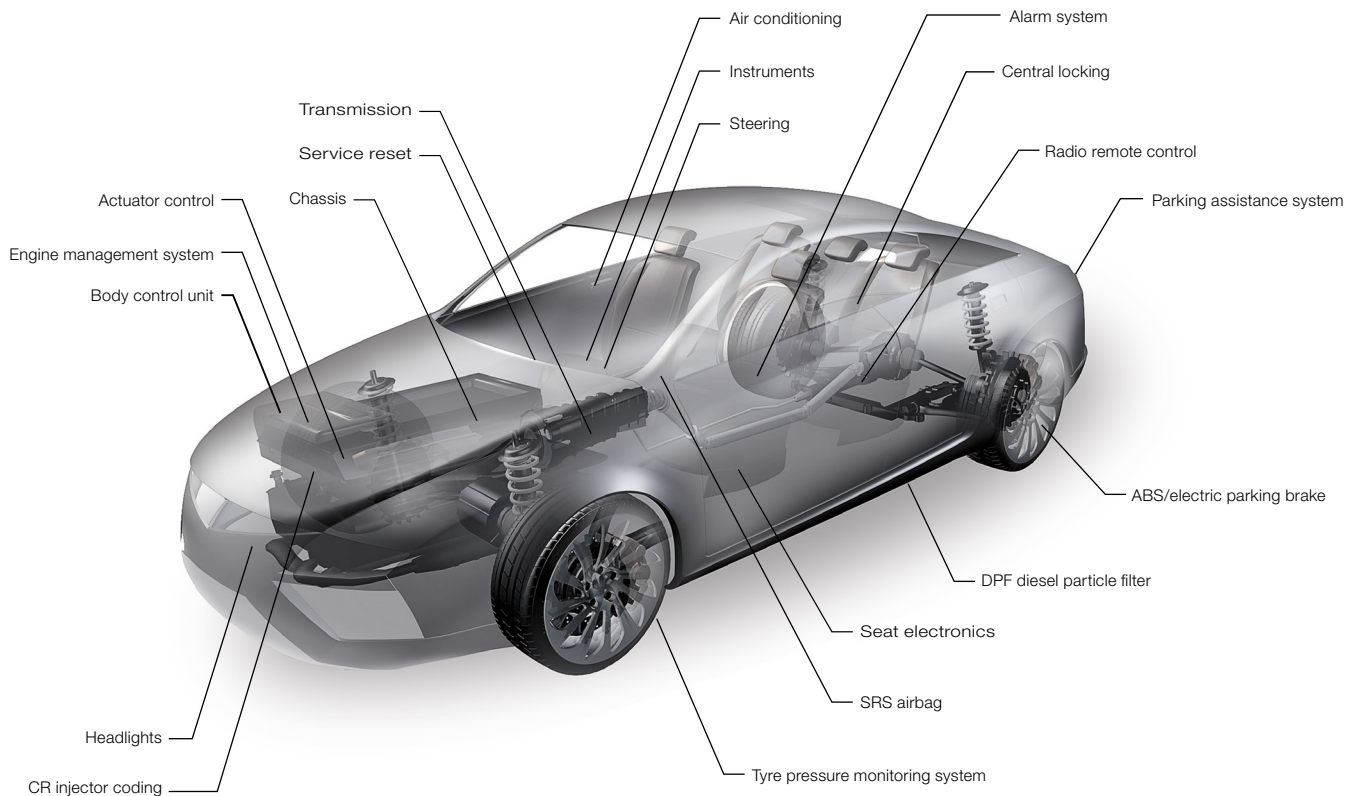

As a market novelty, the ContiSys Scan convinces users through the wide range of models and variety of functions it covers for the safe and secure testing of modern vehicle technology.

The robust housing and ergonomic shape of the ContiSys Scan are perfectly matched to suit workshop requirements. In addition, the large, high contrast display is easy to read even in poor lighting conditions.

Thanks to an integrated multiplexer and CAN controller, the ContiSys Scan enables diagnostics of a large number of vehicle models from 1996 onwards.

Advantages at a glance:

- Supports models from more than 40 vehicle manufacturers
- Extensive diagnostic functions
- Easy operation
- Clear, high resolution display
- Includes 1 year of software updates
- Optional extended software update service
- Includes 3 year warranty
